Role details

Create. Experiment. Learn. Grow.

Earthana is looking for enthusiastic young creators who enjoy transforming ideas into engaging visual stories.

You will work closely with an experienced Creative Lead and brand experts, gaining practical exposure across Earthana's architecture, industrial innovation, landscape, product and social-impact brands.

What You Will Work On

- Video editing for Instagram, LinkedIn and YouTube
- Reels, short-form videos and social-media content
- Storytelling and brand-development videos
- Project presentations, interviews and behind-the-scenes content
- Adding music, subtitles, transitions and motion graphics
- Organising raw footage and maintaining the content library
- Exploring new visual styles, trends and creative formats

Who Can Apply?

- Fresh graduates or emerging self-taught creators
- Candidates from Visual Communication, Media, Design, Animation, Film or related fields
- Individuals with a strong interest in video editing and visual storytelling
- Curious learners who welcome feedback and enjoy experimenting
- Responsible team players who can complete work within timelines

Preferred Skills

Basic working knowledge of one or more of the following:

- Adobe Premiere Pro
- After Effects
- DaVinci Resolve
- Final Cut Pro
- Similar editing tools
- Canva and social-media design tools

What You Will Gain

- Direct mentoring from an experienced Creative Lead
- Practical exposure to professional brand development
- Experience across multiple industries and content formats
- Opportunities to build a strong, diverse portfolio
- A collaborative environment that supports creativity and continuous learning
- Possibility for long-term growth based on performance

We value creative thinking, commitment and willingness to learn more than years of experience.

How to Apply

Please share your résumé along with a portfolio or relevant work samples, such as a showreel, college project, personal video, or social-media work.
